PROPOSED COMPLIANCE ORDER, PENALTY COMPLAINT
WITH
NOTICE OF OPPORTUNITY FOR HEARING
AGAINST
TOWN OF SPRINGFIELD, COLORADO
FOR FAILURE TO COMPLY WITH
UNDERGROUND INJECTION CONTROL REGULATIONS**

PURPOSE OF PUBLIC NOTICE

The purpose of this notice is to solicit written comments on a Proposed Compliance Order, Penalty Complaint with Notice of Opportunity for Hearing (Complaint) [Docket No. SDWA-08-2008-0021] that Region 8 of the United States Environmental Protection Agency (EPA) proposes to issue to the Town of Springfield, Colorado (Town of Springfield), the property owner for an alleged violation at the facility located at Springfield Municipal Airport. The Complaint alleges violation of the Safe Drinking Water Act (SDWA) and the regulations detailing the requirements of the SDWA's Underground Injection Control (UIC) program. These regulations govern the injection of fluids that may endanger an underground source of drinking water (USDW). The Complaint proposes compliance requirements and monetary penalties for the alleged violation.

The EPA desires to receive written comments from any interested party having knowledge of the alleged violation or who can provide any information useful to ensure that the complaint is appropriate. EPA will review and consider all comments received, and will thereafter determine whether to modify or withdraw the Complaint.

BACKGROUND

Part C of the SDWA requires the EPA to regulate underground injection of fluid through wells to assure that underground sources of drinking water (USDWs) are not endangered. Section 1421 of the SDWA requires EPA to administer UIC programs in States that do not have approved State UIC programs. Regulation of the UIC Class V Program has not been delegated to the State of Colorado; therefore, EPA administers the program in accordance with title 40 of the Code of Federal regulations (40 C.F.R.), Parts 124, 144, 146, 147, and 148.

The Class V industrial waste disposal system which is the subject of this Complaint, is located at the Springfield Municipal Airport and owned by the Town of Springfield, and is located three (3) miles north of Springfield, Colorado on U.S. Highway 287/385. A Class V injection well, pursuant to 40 C.F.R. 144.6 and 146.5, is a shallow injection well that injects fluids into or above a USDW. The well subject to this Complaint is of the subclass titled “storm water disposal well,” that received industrial waste.

The Complaint alleges that the Town of Springfield, is in violation of UIC regulations and is subject to appropriate penalties for failing to prevent movement of fluids into a USDW that may cause a violation of a primary drinking water regulation under 40 C.F.R. Part 142 or otherwise adversely affect the health of persons. The Complaint cites that EPA may assess an administrative civil penalty of up to \$11,000 per day, for each violation of the Act, up to a maximum of \$137,500.

PUBLIC COMMENTS

Written comments on the Complaint are encouraged and will be accepted at the address listed below for a period of thirty (30) calendar days after the publication of this notice. Written comments submitted by the public as well as information submitted by the Town of Springfield, will be available for public review as part of the Administrative Record, subject to the provisions of law restricting the disclosure of confidential information. The Town of Springfield may request a hearing. Any person submitting written comments will be notified of and has a right to participate in such a hearing. The Complaint and the Administrative Record are available for review between 9:00 a.m. and 4:00 p.m. at the address listed below. It is recommended that those wishing to view the Administrative Record call Jim Eppers, Enforcement Attorney, Legal Enforcement Program, EPA Region 8, at (303) 312-6893 before visiting the EPA Region 8 offices.

Please submit written comments to:
